THE DISCOVERY OF THE ITALIAN EXCELLENCE

THE DISCOVERY OF THE ITALIAN EXCELLENCE

A learning safari for GNAM network schools

Dear MBA participants,

We started preparing this cycle of online workshops based in covid19-hit Europe during the days of the strictest quarantine ever seen by generations. Only several months ago, who could have said we would be living this global health and economic emergency?

The world has changed, and entrepreneurs once again showed their ability to face unforeseen challenges and to reinvent their business models.

We are strongly convinced that in the modern «new normal» business context, MBA and EMBA students have to learn to think as entrepreneurs, regardless of their future career choices, balancing a creative vision with a solid management approach.

The Learning Safari designed for GNAM has the goal to introduce participants both to the entrepreneur mindset and the best-practice strategies of growth implementation adopted by successful Italian and European companies.

During our online seminars we will work together to make sense out of the current situation and to reflect about the future business models, to improve your decision-making skills, to get inspired by dynamic responses of businesses in Italy and around the world to this new competitive context.

You are looking forward to virtually meeting you!

 What are European and global business and economic scenarios?

Analysing Italian experience:

- How to build strategies under uncertainty by applying scenario planning?
- How to differentiate from competitors?
- How to communicate effectively and to organize sales with omnichannel strategy?
- How to align operations to strategy?
- Competing in luxury: lessons learnt for other industries
- What are Italian firms' responses to the consequences of current pandemic?

THE DISCOVERY OF THE ITALIAN EXCELLENCE

A learning safari for GNAM network schools

STRUCTURE

Our program will consist of:

- 1) Prework activities for each day: pre-recorded sessions and a few pre-readings
- 2) Live interactive online seminars (scheduled at 2-5PM CET)
- 3) Your work in virtual small groups on an assignment
- 4) Your work in virtual small teams on a learning journal

ATTENDANCE

The attendance to live digital seminars is obligatory, though we understand that unforeseen work or family obligations in this challenging period may create difficulties for you to participate. All sessions by SDA Bocconi faculty will be recorded and posted online within a few hours after the session end.

Groups assignments: small groups will need to self-organize their work on assignments. We will form small groups (assuring that you have a chance to interact with students from other schools) and we will provide a «virtual» space for your meetings.

CERTIFICATE AND GRADING

- 1) All assignments will be graded as pass/fail. You will be awarded a course certificate in case all your assignments are "pass".
- 2) To "pass" group assignments you will need to show your minimum ability to apply concepts discussed in class to real cases and situations
- 3) To obtain a "pass" for your "learning journal" your group will need to synthetically describe at least one "lesson learnt"/"aha moment" for each live class.
- 4) For all assignments you will be provided qualitative feedback that we will send you together with your attendance certificate

COURSE MATERIALS

All course materials will be posted via SDA Bocconi learning platform. You will be provided your personal ID to access the platform.
